

Workshop & Seminar – 2019-2020

Industry Internship Program on Electronics Design and Technology by Digital Core Technologies Pvt.Ltd.

One day Industrial Workshop was organised by IETE, TIST on 6th January 2020 for S8, ECE students at Toc H Institute of Science and Technology, Arakkunnam. The workshop was conducted by S. Thomas, Managing Director, and Chief Executive Officer and design engineers from Digital Core Technologies Pvt.Ltd. One day Industrial Workshop on “Basic Electronics Circuits and Systems” from an Industrial perspective, Conducted by Practising design engineers from DCT. It also aimed to co-ordinate and facilitate students with genuine interest and aptitude to build a career in the domain of electronics system design and development. The students experienced a good exposure and hands-on experience on the basics of Electronics System/ Product design from an industrial perspective. It was a platform for students to prepare for acquiring a job/building a successful career in the core Electronics domain.

Internship Workshop

In association with Ezenith education Bangalore, a 5 day workshop & internship on drone development was held in the department for 2017 admission students.

Faculty Development Programme on „Wireless Technology for Embedded Systems“

Department of Electronics & Communication Engineering in association with IEDC, TIST and Srishti Robotics conducted a Two-days Faculty Development Programme entitled “Wireless Technology for Embedded Systems” on 18th and 19th July 2019. The objective of the Programme was to equip the participants with contemporary research and teaching skills. The workshop also focused to give an exposure to “state of the art” in embedded system hardware and software development in various applications.
